The Canmaker is a key source of business intelligence for canmakers, their suppliers and their customers in the food, beverage, personal care, home products and industrial sectors.

With a monthly print magazine and expansive on-line services, The Canmaker provides news, market developments and comment in a global market that is estimated will be worth $125 billion* in 2017 and growing at 2 percent a year.

Having reported on developments in the world of metal packaging since 1988, The Canmaker has established itself as a vital resource for decision makers in the packaging and filling industries.

CIRCULATION

While around 3,500 copies of The Canmaker are circulated worldwide, our surveys have shown that on average each copy is read by up to seven individuals, reflecting an estimated global readership of more than 20,000. By offering a special professional subscription rate – only available to those who are certified canmakers, fillers or suppliers to the industry – The Canmaker restricts its readership to those who are specifically aligned to the content, ensuring that editorial coverage and advertising are matched to those who receive it.

The success of this approach and the importance of The Canmaker to its readers can be seen in the many subscriptions that have been active for more than a quarter of a century.

RELEVANCE

The position that The Canmaker holds in the metal packaging world is largely due to a unique interaction between the contributors, the editorial board and the readership. Since the very first issue, we have encouraged a dialogue with our readers, helping to provide a constant flow of information and ensuring that the content is always focused.

Alongside regular editorial visits to manufacturing and research facilities around the world, our contributors regularly meet with readers at conferences, The Canmaker Summits and at the Cannex & Fillex shows, all of which are sponsored by the magazine.

With such a highly targeted and reactive audience, The Canmaker magazine is a most effective medium through which products and services can be promoted to canmakers anywhere in the world.

As a provider of business intelligence, we recognise the importance of those who use our services. Readers who qualify for a professional subscription are given free membership of The Canmaker Gold Club. This offers privileges such as access to the extended online breaking-news service and archive, discounted priority booking at our conferences and use of The Canmaker Gold Club Lounge at Cannex & Fillex shows.

The membership list of The Canmaker Gold Club reads like a international who’s-who of the metal packaging world, embracing executives and staff from the smallest companies to the largest international corporations.

The Canmaker is committed to serving all of these members proactively and reactively, ensuring that the resources, information and business intelligence that they require are always readily available.

THE CANMAKER GOLD CLUB

As a provider of business intelligence, we recognise the importance of those who use our services. Readers who qualify for a professional subscription are given free membership of The Canmaker Gold Club. The membership list of The Canmaker Gold Club reads like a international who’s-who of the metal packaging world, embracing executives and staff from the smallest companies to the largest international corporations.

The Canmaker is committed to serving all of these members proactively and reactively, ensuring that the resources, information and business intelligence that they require are always readily available.
THE CANMAKER INNOVATIONS

Published at the beginning of each year, The Canmaker Innovations is an in-depth analysis of the latest metal packaging developments, technology and ideas from every sector of the business. At its heart is a review of The Canmaker magazine Cans of the Year awards, featuring the winners and short-listed entries with images and descriptions.

As such, The Canmaker Innovations offers a spotlight on the activities of canmakers, and a reference work for anyone with an interest in the design, decoration and applications of metal packaging.

THE FILLING BUSINESS

As a complement to packaging manufacturing, The Filling Business is an on-line information source for brand owners in the food, beverage, cosmetics, personal care and industrial sectors. It covers canning and bottling operations, and provides news for those who work in companies that fill packaging, or supply products and services to fillers and co-packers.

The Filling Business offers a range of on-line news services with a searchable archive. It focuses on business trends from the point of view of packers, suppliers, designers and brand owners.

The Filling Business is both a link to the Sayers Publishing Group specialist packaging publications and an extension of their coverage.

* For Gatefold, Double and Full Page advertisements please add 3mm on all sides for bleed.
For advertisement series the prices quoted are per insertion.
Front Cover available by application.
Recruitment Cover available by application.
ONLINE ADVERTISING

ONLINE ADVERTISING THAT DELIVERS

There are two key factors to consider when choosing an online partner through which to promote your products and services – the click-through rate from the website and the relevance of the potential customers that it delivers.

At www.canmaker.com, the click-through rate is around 35 percent higher than what is regarded as a successful campaign in the industry, and considerably higher than the average. But that is only part of the story.

As a long-established provider of business intelligence, www.canmamer.com operates its web pages as a members-only site, restricting access to individuals and companies who are directly connected with the canmaking and can filling industries. This means that our visitors are precisely focussed on the services that are provided by our advertisers.

And there is a bonus. Users browse www.canmaker.com web pages for an average of 6.4 minutes per visit, much higher than the industry average of 3-4 minutes, which exposes them to our online advertising for longer than other sites.

For companies seeking new business contacts through the internet, www.canmaker.com is the ideal medium to target relevant potential customers.

Website Home Page

1 Centre banner - top
   Size: 670 x 130 pixels
   Position: Home page, visible on front page and appears below all news articles in random rotational order.
